FTI FAA TELECOMMUNICATIONS INFRASTRUCTURE

UPDATE

November 2001 Since the printing of this brochure, the FTI program has gone through some program changes that we wanted to be sure to update you on. We will keep you, our customers, stakeholders and industry partners informed every step of the way.

Your best overall source for FTI info is our web site: **faa.gov/programs/fti**

We are pleased to announce the newest member of our FTI team who will be leading our Business Operations effort - Ms. Deborah Sturdivant. You may reach her at Deborah.Sturdivant@faa.gov .

The first of November, we released Amendment 18 to the FTI SIR. This is available on our Web Site as well. The significant changes in this amendment include the following:

The removal of mission support voice and data requirements from the source evaluation, e.g., ADTN, FTS Services. These requirements remain within the scope of the contract and will be considered for transition after relevant security issues have been satisfactorily addressed.

Additionally, a revised contract award date of June 28, 2002 was announced.
